ALL CACI TREATMENTS - BUY A COURSE OF 10 & ONLY PAY FOR 9

COMCIT TREATMENTS* - Cryo Oxygen Microchannelling Collagen Induction Therapy - Results are immediate. Due to the simultaneous action of four skin rejuvenation technologies, you will notice the difference after your very first treatment. Your skin will be beautifully plumped and feel firmer. The result will get better and better as new Collagen production is kick-started around day 4. For the ultimate rejuvenation we recommend a course of 6 treatments, taken 2 weeks apart. Why do I need to wait for 2 weeks before I have a further treatment? It takes between 4 -14 days for your fibroblast cells to lay down new Collagen. At day 14 we can stimulate the repairing and restructuring process again.

The Frozen Facial **60min** **£80**

The most effective and advanced skin rejuvenation treatment yet, tackling lines, wrinkles and pigmentation.

H2O Glow **60min** **£80**

Most intense hydration treatment yet. Brighter, fresher, hydrated skin that glows with a youthful radiance giving red carpet ready results

Acne Targeting **60min** **£75**

The healing, anti-bacterial power of Cryo Oxygen works its magic on problem skin. Then COMCIT technology is used to push Blemish Defence Infusion, containing salicylic acid and AC net, into the skin to target blemishes, redness and inflammation at the source, to sooth and calm.

Oxygen Facial **45min** **£50**

Crystal Clear Oxygen facial will visibly plump out lines and wrinkles and will hydrate the skin.

To achieve optimum results, it is recommended you have a course of 6 treatments, 1 every 2 weeks, followed by a 4-6 week maintenance session

HENNA BROWS 60min £25

Henna brows are a form of eyebrow tinting that is used to stain the skin beneath the brow hairs. The purpose of this is to cast a shadow or create an illusion of depth and fullness in the area, visually filling in any sparseness. Beneficial to those wanting better definition to their eyebrows perhaps not quite ready to tackle cosmetic tattooing or microblading eyebrows. The results of henna brows typically last between 2-4 weeks, but it's dependent on your skin type. If you have a dryer complexion, henna brows will tend to last a bit longer than they would on someone with an oily complexion.
